To Whom It May Concern:

The effects of alcohol and drug use can devastate campus communities. Academic problems, legal issues, ruined reputations, assault, vandalism, injury, and even death are some of the unwanted and unintended consequences of drug use and underage and excessive drinking. At Southern Virginia University, we are proud to offer a high quality liberal arts education in an environment supportive of the values and teachings of The Church of Jesus Christ of Latter-day Saints. Our student body is committed to follow high standards of conduct including the abstinence of alcohol and illicit drugs. Faculty, staff, and students are devoted to create an alcohol and drug free campus community where individuals can fulfill their spiritual, intellectual, and social potential as sons and daughters of God.

I invite you to learn more about Southern Virginia University by visiting us in person or taking time to enjoy our website at www.southernvirginia.edu.
